Pursuant to preliminary amendment, claims 1-15 have been cancelled, and claims 16-26 added. Claims 16-26 are now pending.

.

A restriction is imposed, as set forth below. First, however, the following subgenera are defined:

G1: The polypeptide is a fused protein of SEQ ID NO: 2, 4, 6, or 8;

G2: The polypeptide is a fused protein of any polypeptide that comprises a fragment of SEQ ID NO: 2, 4, 6, or 8;

G3: The polypeptide is a circularly permuted derivative of any polypeptide that comprises SEQ ID NO: 2, 4, 6, or 8;

G4: The polypeptide is a circularly permuted derivative of any polypeptide that comprises a fragment of SEQ ID NO: 2, 4, 6, or 8;

G5: The polypeptide is glycosylated;

G6: The polypeptide comprises SEQ ID NO: 2, 4, 6, or 8 (or a salt thereof) but with the qualifier that none of G1 –G5 is included;

G7: The polypeptide comprises a fragment of SEQ ID NO: 2, 4, 6, or 8 (or a salt thereof) but with the qualifier that none of G1 –G6 is included;

G8: The polypeptide can be whatever the claims permit, provided that G6 and G7 are excluded.

Restriction to one of the following inventions is required under 35 U.S.C., §121:

- 1) Claims 15, 16, 18, limited to G6.
- 2) Claims 15, 16, 18 limited to G7.
- 3) Claims 15-25, limited to G8.
- 4) Claim 26, drawn to a method of using a polynucleotide.

.

The claimed inventions are distinct from one another.

Applicant is advised that for the response to this requirement to be complete, an election of the invention to be examined must be indicated, even if the requirement is traversed (37 C.F.R. 1.143).

Applicant is reminded that upon cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a diligently filed petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(h).

.

In addition to the foregoing, applicants are required under 35 U.S.C. §121 to elect disclosed species (as follows) for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable.

In the event that Group I is chosen for initial examination, election of the following is required:

- a) a specific disease;
- b) a specific polypeptide;
- c) a specific carrier that is to be used in the elected method.

.

In the event that Group III is chosen for initial examination, election of the following is required:

- a) a specific disease;
- b) one of the following subgenera: (i) the polypeptide is an immunoglobulin fusion, or (ii) the polypeptide is not an immunoglobulin fusion.

.

In the event that Group IV is chosen for initial examination, election of the following is required:

- a) a specific disease;
- b) a specific polynucleotide;
- c) a specific polypeptide that is encoded by the elected polynucleotide.

Applicant is advised that a response to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a generic claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are witten in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP 809.02(a).

Should applicant traverse on the ground that the species are not patentable distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. . 103 of the other invention.
